An indispensable tool if you want to travel armed and know the basic rules at the next state line. Ranks each state on its relative freedom too. Before you

pack your bags and go, get and read this book. **Includes the Nationwide Concealed Carry Reciprocity List!**

Each has a detailed plain-English summary, main passages highlighted, the ultimate guide. The cases *“assume or are consistent with the proposition that the 2nd Amendment is an individual right.”*—Dave Kopel. *“Superb... Groundbreaking.”*—The Goldwater Institute. AFTER YOU SHOOT:

Your gun's hot, the perp's not, now what?

Alan Korwin, 160 p. #AYS, \$14.95. Dial 911 and fry. Don't help convict yourself after self defense. Huge legal loopholes and the whole justice system are poised to nail you. If you don't know what to do you'll be in more trouble than the crook. Will you demand a lawyer—from the police who show up looking for convictions? Includes aftermath procedures police themselves use, other approaches, plus the controversial "Adnarim" (reverse Miranda) statement. Read *After You Shoot*, it's as important as the gun that saves your life.

NEW!

How to Win a Gunfight Tony Walker. 108 p. #HTWA \$14.95. Remarkable, centered around the surprise and first instants of a lethal encounter. Target practice is a small piece of the close quarters, millisecond events prior to an attempted criminal homicide. His work on managing fractional-second

Hill has successfully restored rights and has gotten clients' firearms back, with full rights restoration, here's how it's done. Takes you from the humiliating psychological shock in the store, to final paperwork and return of your guns.

Confrontational Politics

Senator H.L. Richardson, 136 p. #CP \$9.95. The BS you see in government seems unexplainable but isn't: "Politics works, just not the way you think it does." State Senator Richardson lays out what really goes on, and you'll grasp the

truth right away. His insider view clears the fog—politics follows simple rules and patterns you can manipulate. One of those rare books that is all meat.

That Every Man Be Armed

Stephen P. Halbrook, Ph.D., 274 p. #TEMBA \$19.95. Answers the questions about intent of the Second Amendment. With 1,300 footnotes, Halbrook quotes sheaves of original documents of our founders. There may be confusion

in America today, but there wasn't any back then. The title is from Patrick Henry, "The whole object is that every man be armed. Everyone who is able may have a gun." Henry's peers make similarly unambiguous remarks, removing all doubt.

The Second Amendment, Preserving the Inalienable Right

David Barton. 96 p. #SAP \$5.95. Has more to say about what the 2nd Amendment means than books three times its size. Get the clear, concise, well-documented heart of the gun-rights debate—throw this

little puppy in with your order. Includes the early thinking and writing from Colonial days, gives citations, and provides the verbal ammunition to make an authoritative case any time you speak up.

The County Sheriff: America's Last Hope

Sheriff Richard Mack, 50 p. #CSA \$9.00. Your Sheriff is meant to be the ultimate law enforcement authority in your county, a non-bureaucrat who answers to one boss—the people. Sheriffs need to stand up

against federal and other tyrants to protect you and the Constitution. Mack sees this as the last best hope for America, makes his case with vision and clarity.

How To Win Friends And Influence People

Dale Carnegie, 260 p. #HTWF \$15. The first, and still best book of its kind. Protecting your rights is not just about facts. If you win all your debates, you're losing. You don't want to win debates, you

want to win friends and influence people. This famous book shows you how. 12 Ways To Win People To Your Way Of Thinking; 9 Ways To Change People Without Arousing Resentment; 6 Ways To Make People Like You. Powerful people skills.

Getting To Yes—Negotiate Agreement Without Giving In

Fisher & Ury, 200 p. #GTY \$15.00. Based on the Harvard Negotiation Project, these ground breaking principles are the heart of the most effective

persuasion, will make you more effective with anti-rights advocates, legislators, bureaucrats. Tells you how to negotiate successfully with people who are more powerful, refuse to play by the rules, or resort to dirty tricks. Don't get angry or taken, get results.

DEFENDING YOUR RIGHTS AND POLITICAL REALITY

It's not about winning a debate or being right. It's about convincing the other guy.

Boston's Gun Bible

Boston T. Party, 848 p. #BGB \$33.00. Astounding compendium of everything for the modern gun owner. Starts with legalities of gun use, safe handling, self defense, tactics and training. Covers weapons for fighting—combat handguns and battle rifles of most makers, info on caliber and cartridge types. Even covers reliable pre-1899 guns. Ideas for women, and how best to obtain everything you need. Wraps up with a superb section on civilian disarmament forces, who's doing what, and ways to defend your rights. Great essays on courage and preparing for the worst while working to avoid it.

More Guns, Less Crime

John R. Lott, Jr., Ph.D. 472 p. #MGLC \$18.00. The classic. Lott, a scholar at Yale, became famous for it—a statistically sound, scientifically valid analysis of every American county, which found gun ownership lowers crime. He published the data, and other scholars confirmed the results. Anti-gun bigots hate this book because it shows gun ownership, specifically the right to carry, helps reduce crime. Packed with statistics, charts and graphs, but very readable and makes the point with crystal clarity—guns stop crime and deter criminals. New 3rd Edition.

Nation Of Cowards: Essays on the Ethics of Gun Control

Attorney Jeff Snyder, #NOC \$14.95. These are simply some of the most brilliant essays ever written on this subject. The title essay has become globally famous. The rest are as good or better. His basic premise is

that **you alone own your life, and that it is unethical, immoral and politically corrupt to entrust your right to your life to someone else**, or to abdicate the tools needed to protect yourself and your loved ones. People who would ban these rights, or encourage you to abandon them, even if they believe they are doing good, are the worst kind of cowards, the opposite of American values.

Original Intent **NEW!**

David Barton, 552 p. #OI \$12.95. Based on thousands of primary sources, this book displays the difference between what the Founders put in our Constitution, and what the courts and legislatures have twisted it into—a near total destruction of the nation's fabric. Get the info you need to understand and refute the revisionists, champion the true meaning of America, and help take the nation back to its roots. From absurd views of religion to powers it does not have, government is far from *Original Intent*.

The Bias Against Guns: Why Almost Everything You've Heard About Gun Control Is Wrong

John R. Lott, Jr., Ph.D. Hardcover, #BAG \$19.95. Dr. Lott has assembled hard proof for what so many of us have recognized—news media portrayal of guns and gun issues is completely wrong. They virtually exclude anything positive about guns, distort the rest. Millions of defensive gun uses (DGUs) occur annually, but the news in 2001 showed: USA Today: 5,660 words on gun crime, zero on DGUs; NY Times 50,745 words on gun crimes, DGUs 161 words (one story on an off-duty cop); All three networks combined, 190,000 to zero. Breathtaking facts.

Surviving a Massacre, Rampage, or Spree Killing **NEW!**

Arthur Cohen, 190 p. #SAM \$19.95. Analyzes past incidents to define the killers and what to expect in the future. Helps you develop real-world action plans for surviving such an assault. Focuses on what you can do in first few deadly minutes, because events don't last long. Tactics derived from what worked or didn't in past incidents since people present are the first responders. By a 33-year teacher who worked with police agencies. Don't be in denial, be prepared.

*Nothing will ruin the country if the people themselves will undertake its safety.
And nothing can save it if they leave their safety in any hands but their own.*

-Daniel Webster

DEFENDING YOUR RIGHTS AND POLITICAL REALITY

It's not about winning a debate or being right. It's about convincing the other guy.

From Luby's to the Legislature:

One Woman's Fight Against Gun Control

Suzanna Gratia Hupp, 200 p. #FLT \$22.95. POLITICALLY CORRECTED GLOSSARY

We've all talked about losing the war of words in the struggle for our liberties. Well here comes the cavalry—

Certain words hurt you when you talk about your rights and liberties.

People who would deny your rights have done a good job of manipulating the language so far. Without even realizing it, you're probably using terms that actually help people who want to disarm you.

To preserve, protect and defend your

rights in the critical debate of where power should reside in America, you need effective word choices. Try some of the ideas in this chart next time you deal with this subject. The full chart's at GunLaws.com

This is just a small part of my full *Politically Corrected Glossary*. Get the rest in ready-to-print form (a PDF file) on our website. Feel free to share this with your friends, journalists, anti-gun bigots, and anyone else who needs a refreshing perspective on the liberties your personal firearms represent.

Read the rest of this and dozens of Alan's other essays at GunLaws.com

WHEN THEY SAY: YOU SAY:	
Guns kill	Guns save lives
Guns cause crime	Guns stop crime
Guns are bad	Guns are why America is still free
Assault weapons are bad	Assault is a type of behavior
Guns are too dangerous to own	You should take a safety class
People shouldn't have guns	Maybe you shouldn't have one
People don't need guns	Only good people need guns
Gun owners should be registered	Bad guys first
They should take away all the guns	Bad guys first. Who is "they"?
The purpose of a gun is to kill	The purpose of a gun is to protect
We need more gun laws	Criminal activity is already banned
Do you really have a gun?	Of course, don't you?

TWO EXCELLENT POLITICAL NOVELS

An Act of Self Defense. Erne Lewis, 292 p. #AAOS \$15.95. How would resistance shape up if the feds got really out of control? If they abandoned law, pursued anyone in their way—where's the tipping point? Big Brother's ability to track you, and your options for evasion make a tense thriller in the fight against an insanely powerful cadre running a virtual police state. A small highly motivated tech-savvy group can accomplish what a paralyzed Congress cannot. The tree of liberty will be refreshed.

Tempest at Dawn. James D. Best, 420 p. #TAD \$28.95. The U.S. is near collapse, military near ruin, anarchy threatens, world powers hover eager to devour the remains. In a desperate move, powerful men meet secretly and plot to overthrow the government. Sound familiar? Fifty-five men came to Philadelphia in 1787 to revise the Articles of Confederation, instead, founded the greatest republic in history. Their spine-tingling story, true to the facts, told as a page-turning novel. Spellbinding way to learn our history, fully researched, accurate, the human element skillfully added. Superb.

Proclaiming Liberty: What patriots and heroes really said. Philip Mulivor, 106 p. #PC \$12.95. The great quotes about liberty, historically precise, with full attribution! We owe this author a debt of gratitude—he tracked down the origin and exact wording of all the famous freedom-and-firearm quotes—right here in one place.

Citizens Terrorism Awareness and Survival Manual. Col. Mike Licata, USAF (Retired), 80 p. #CTA \$9.95. Lots of pictures. Everyone says watch for terrorists—here's what to look for, with escape and survival info too. Developed by military, police and psychologists, used at more than 1,000 government agencies. Identify enemies in our midst before they strike.

The "Magic" of Gun Control. Sheriff Richard Mack, 148 p. #MOG \$20.00. The man who got the Brady bill to the Supreme Court (*Printz v. U.S.*) does a better job of telling why so-called "gun control" is voodoo magic that cannot work, exposing the myths,

lies and deceit of this dangerous political power struggle than anyone else. Read this and understand what the anti-rights bigots are really doing to you and America.

The Shadows of Power. James Perloff, 272 p. #SOP \$10.95. It's not conspiracy theory to know that control of money here and abroad is bigger than government or who's running for office this time around. The Council on Foreign Relations, its tentacles, the banks, and the real global power brokers on Earth are exposed in this bone-chilling fact-packed study. Nations don't rise and fall by accident.

Death by Gun Control. Aaron Zelman and Richard Stevens, 326 p. #DBGC \$12.95. This is one scary book. Dramatically written, describes in chilling detail how governments systematically murdered millions in recent history with lies, false promises, power monopolies and so-called gun control—deliberately disarming populations so they could be easily wiped out. Understand the balance of power between you and "officials" who say they serve you.

The Uninvited Ombudsman

The Ten Commandments of Self Defense CD.

Rabbi Dovid Bendory, 42:56, #D-TCO \$21.95. 2-disc CD-audio set with Study Guide. Coming from a Rabbi, this is measured, calm, without fiery rhetoric of the gun debate, supremely rational.

Peace-loving people are obliged to protect themselves and others from evil, protect self and community from harm.

Agenda: Grinding America

Down. Curtis Bowers, 1:33 #D-AGAD \$18.00. The communist threat hasn't gone away, it's gotten worse, quietly, eating us from within. The "news" media is complicit, hides the obvious—25% of the world lives

under marxism/socialism right now. Erosion of our culture, religion, morals, values, families aren't coincidences—the enormously clever marxist plan has infiltrated society at every level. A powerful expose.

No Guns for Negroes?

Jews for the Preservation of Firearms Ownership, 20:37, #D-NGFN \$9.95. Scholars and gun advocates know it, the rest of the world needs to find out—"gun control" was about repressing Blacks, from before the Civil War, through Jim Crow, segregation, even now with Black welfare "leadership." Only JPFO has the guts to tackle this head on.

No Guns for Jews?

JPFO, 40:51, #D-NGFJ \$9.95. If anyone should understand dangers of "gun control" it is Jews. Mind-numbing documentary explains how Jews have been systematically disarmed so governments can exterminate them, drawing similarities to other groups. Tyrants want phony "gun control" to spread; history and fact-packed lessons. Discounts for groups—like for your place of worship! Wakes people up.
